

Sativa

Product Bulletin

INCI Name: Cannabisamidopropyl Dimethylamine

General Information: Cannabis-Derived Sustainable Conditioning System

ProCondition™ Sativa is a multi-functional hair conditioning agent and emulsifier derived from Cannabis Sativa Seed Oil. As a hair conditioning agent, it has comparable performance to Cetrimonium Chloride (CTAC). As a primary emulsification system, it builds formulation stability by formation of lamellar liquid crystals.

- Non-quat cationic conditioning
- Replacement for CTAC or SAPDMA
- Comparable wet and dry combing to CTAC and SAPDMA
- Creates lamellar gel networks
- Versatility in viscosity building
- Primary emulsifier
- Non-toxic to aquatic life
- Non-irritating to skin or eyes
- Readily biodegradable
- Designed with green chemistry

Applications:

hair care | conditioners | shampoos | hair treatments | skincare | serums | cleansing | body care | shave & beard
