# Freedom to Formulate Sun Care with Better Performance, Sensory, and Sustainability.

LexFeel® SunLight MB is a 100% natural, multifunctional dispersing solution for silky, smooth blends of metal oxides — even non-nano, uncoated zinc oxide.

### Create Mineral Sunscreens that Have:

Lighter feel and flow

Less whitening upon application

Stable particle size distribution, even with high metal oxide levels

### Performance in Application

Formula	Viscosity @ 0.1 s <sup>-1</sup> (cP)	Viscosity @ 1 s <sup>-1</sup> (cP)
<b>Fast Flow Sun Fluid SPF 50*</b> (LexFeel® SunLight MB)	23,200	5,200
<b>Slow Flow Sun Lotion SPF 50</b> (CCT +PHSA**)	78,400	15,900

\*Formulation UV-1044, \*\*Caprylic Capric Triglyceride and Polyhydroxystearic Acid

### Viscosity

Fast Flow Sun Fluid SPF 50\* has 3x lower viscosity.

### Shear Thinning

Fast Flow Sun Fluid SPF 50\* is shear thinning, making it flow faster, spread easier, and ideal for spray formats.

### Both Formulas

Contain 25% uncoated, non-nano Zinc Oxide; Do not contain UV absorbing or scattering boosters; Tested for viscosity, rheology, sensory, in-vitro SPF, and white cast
